Dear

Following recent discussions between staff from ANVS, NRG and JRC related to the upcoming request for a license transfer from JRC and NRG I would like to confirm the following:

The NDO bunker (building number 10 on the HFR site) is currently under the license of JRC (GCO No. 2010/0981-11 date August 12, 2010).

JRC agrees with and fully supports the transfer of the license to NRG by inclusion of the building and the activities therein into the license of the HFR, to be held by NRG.

I trust the above will contribute to a speedy execution of this matter.

Best regards,

Director
